TO: Mayor and City Council
 FROM: Councilman Roberto C. Treviño

 SUBJECT: Enhanced permitting processes
 DATE: February 5, 2018

Issue Proposed for Consideration

I ask for your support for the inclusion of the following item on the agenda of the earliest available meeting of the Governance Committee:

I request the City Of San Antonio to develop options to enhance the permitting process so that building permit applicants provide information regarding their good standing with professionals, e.g. engineers and architects, providing instruments of service for the permitting process.

Brief Background

AEC (Architecture, Engineering, and Construction) professionals provide an instrument of service that is necessary in the permitting process. Often, these professionals are not fully compensated for the work they have performed. If we can use the permit process to demonstrate they are in good standing with AEC professionals, then we can effectively discourage bad actors from operating in our community.
